

Blane Warrene

Fractional & Contract Head of Product · Product & Operations Executive · US Eastern, remote

AVAILABLE FOR	CAPACITY	BEST FIT	START
Fractional, contract, project, advisory	1 to 2 new engagements	B2B SaaS, PE backed, post-acquisition	This quarter

WHO I AM

A senior product and operations executive with a technical and business career. I have led product end to end and owned the seam where product meets go to market. I do not stop at the strategy deck; I build the operating systems, frameworks, and automations a product org actually runs on, then leave the team able to run them without me.

HOW I PLUG IN

Fractional	Ongoing, one to two days a week. Carry the product leadership seat while you hire, or permanently for a lean team.
Contract	Embedded full time for a fixed term, typically three to six months, to land a specific outcome.
Project	Scoped work: a post-acquisition product integration, a roadmap reset, a positioning teardown, an AI automation build.
Advisory	Monthly, low hours. Operator sounding board for a founder or a first-time product leader.

Refer me when you hear someone say:

- “ We need a Head of Product now, and the hire will take six months.
- “ We just acquired a product and nobody owns the integration.
- “ Our roadmap and our go-to-market story have drifted apart.
- “ Product ships, but there is no operating rhythm.
- “ We want AI wired into how product and GTM run, not another pilot.

WHERE I CREATE VALUE

- Roadmap convergence.** Turn competing priorities into one sequenced plan the team and the board both believe.
- The product-to-GTM seam.** Positioning, sales enablement, and launch that match what the product actually does.
- Operating cadence.** Install the planning, reviews, and decision rights so product runs without heroics.
- Post-acquisition integration.** Own the product seat M&A usually misses. Author of the 90-Day Product Integration Framework.
- AI automation that compounds.** Build agents and automations that take real work off the product and GTM team.

PROOF OF WORK

GitHub github.com/enalbenerraw · shipped Claude plugins, a GTM intel CLI, and published frameworks. Working code, not slides.

HOW TO REFER ME

A good intro is one line: who they are, what they are trying to do, and that you think we should talk. I take it from there.
